Model A · Lexical | How leading topics vary over time

Top topics ranked by total fractional-document weight across 2016–2025. Draft titles summarize clustered keywords.

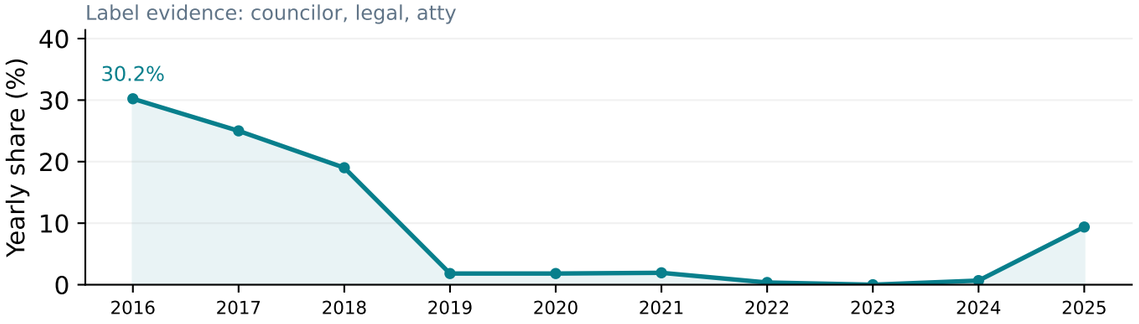

Includes procedural/OCR-heavy clusters when they rank highly; do not interpret those as substantive policy themes.
Same color scale across models. Topic IDs and titles do not imply cross-model equivalence.

Model A · Lexical | Leading topic trajectories

Top clusters by total document weight; procedural and unclear clusters remain visible. Titles are drafts, not expert ratings.

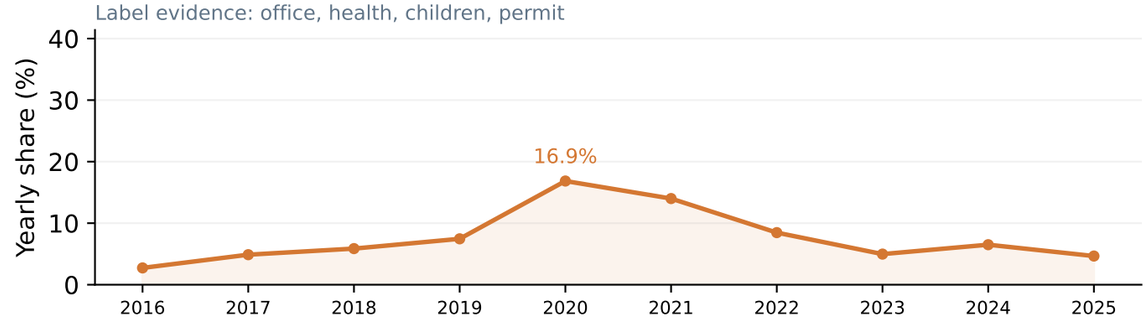

T6 · Council correspondence and legal endorsements

Label evidence: councilor, legal, atty

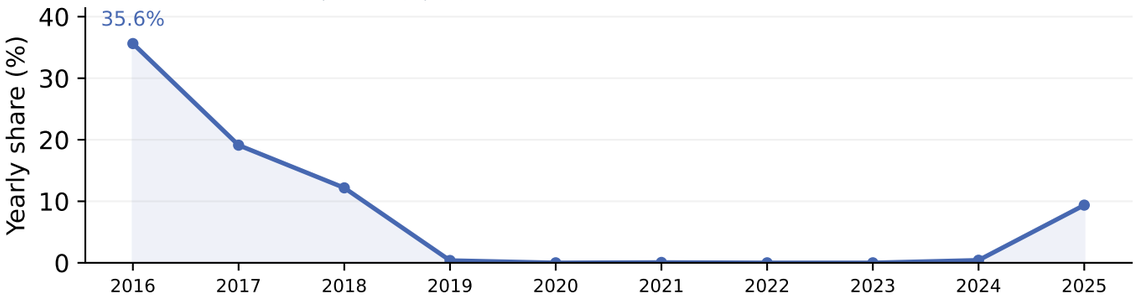

T0 · Mixed public administration and regulatory wording

Label evidence: office, health, children, permit

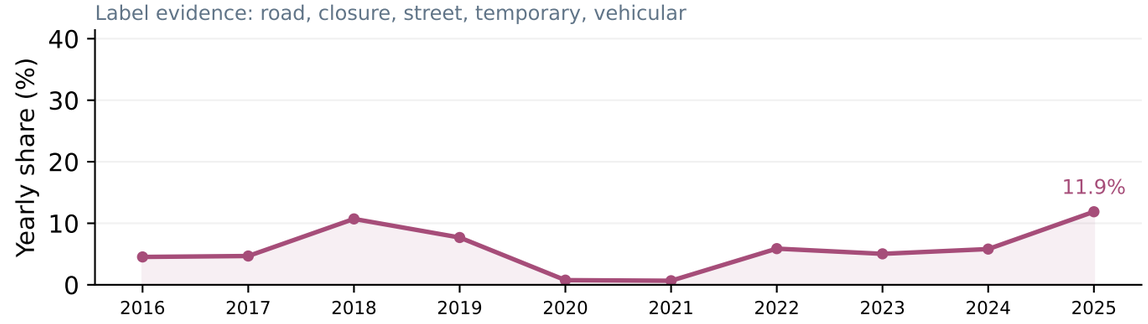

T11 · OCR-heavy enactment wording

Label evidence: sectioii, ordained, ard

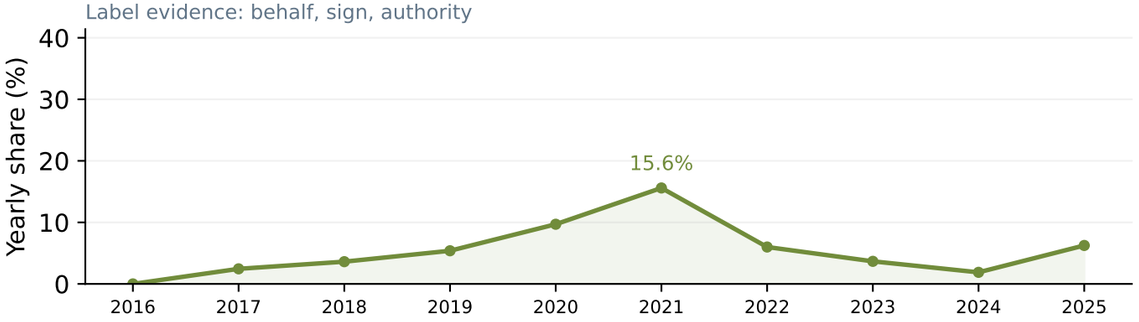

T1 · Temporary road closures and traffic control

Label evidence: road, closure, street, temporary, vehicular

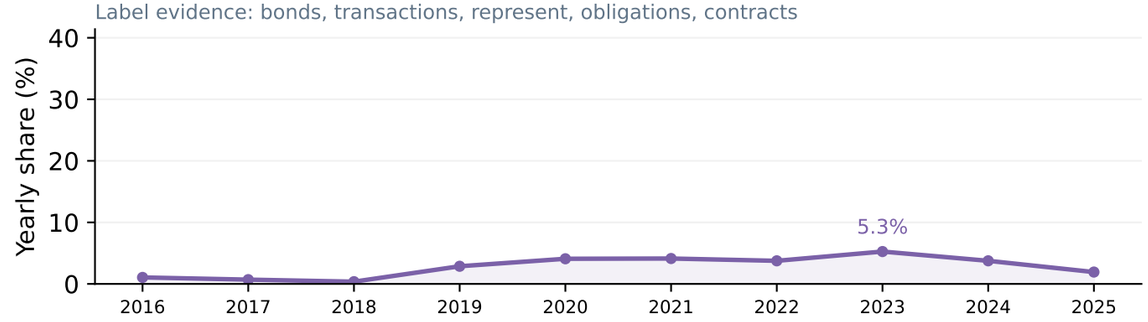

T19 · Mayoral signing and legislative authority

Label evidence: behalf, sign, authority

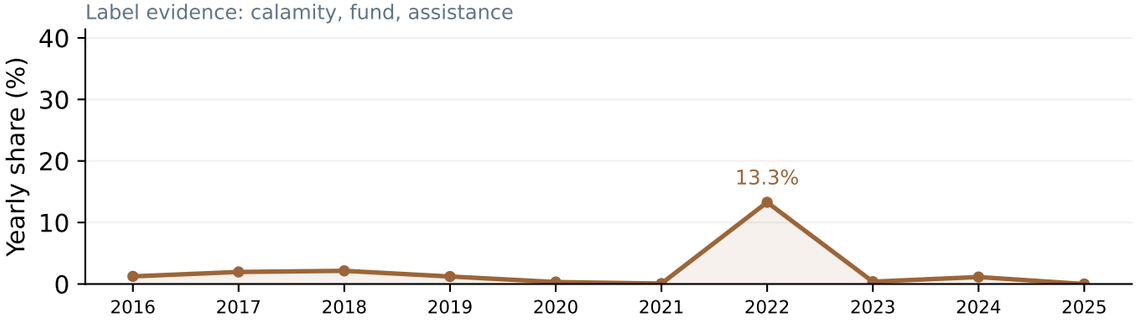

T2 · Contracting, representation and financial obligations

Label evidence: bonds, transactions, represent, obligations, contracts

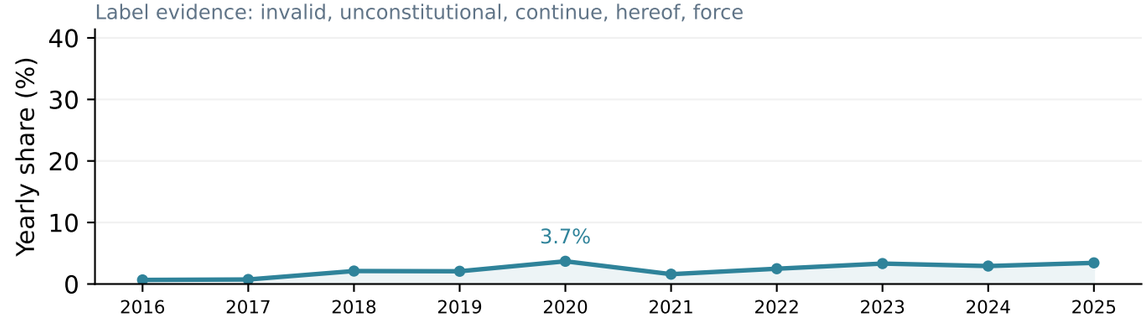

T29 · Disaster relief and calamity funding

Label evidence: calamity, fund, assistance

T3 · Separability and validity clauses

Label evidence: invalid, unconstitutional, continue, hereof, force

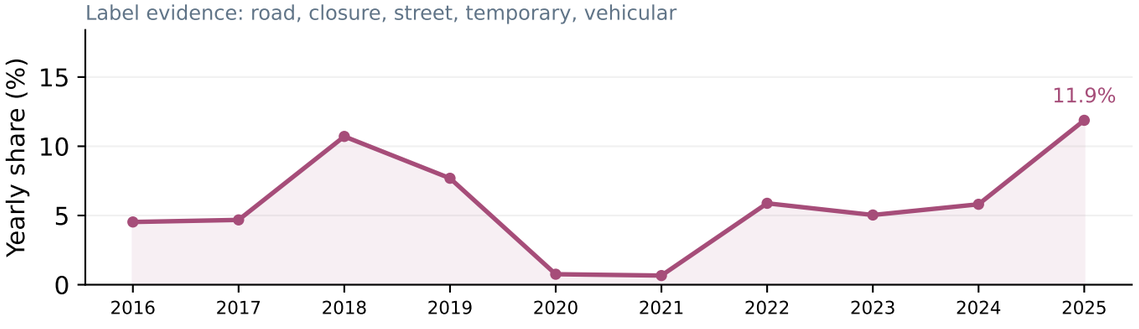

Document-weighted share = average within-document topic share in each year's included corpus; outliers remain in the denominator.
Lines connect annual observations only. Changes in this archive do not establish citywide policy growth, causation or statistical significance.

Model A · Lexical | Selected interpretable topic trajectories

Policy/governance keyword labels only; largest cluster per repeated title. This is a disclosed subset, not merged topics. Titles are drafts, not expert ratings.

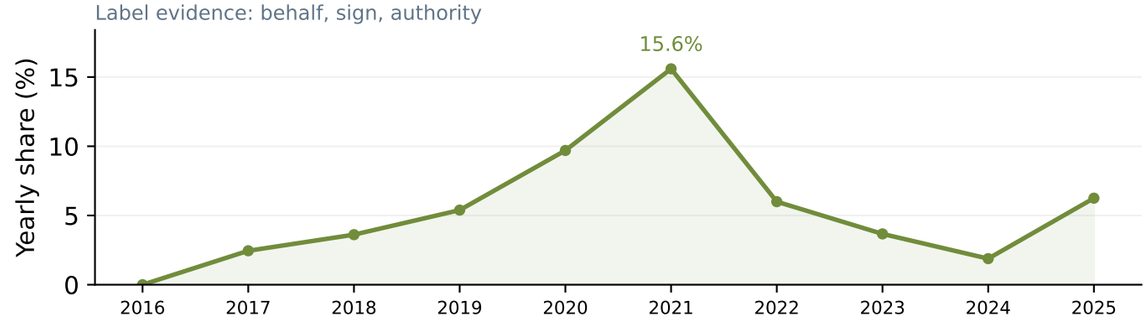

T1 · Temporary road closures and traffic control

Label evidence: road, closure, street, temporary, vehicular

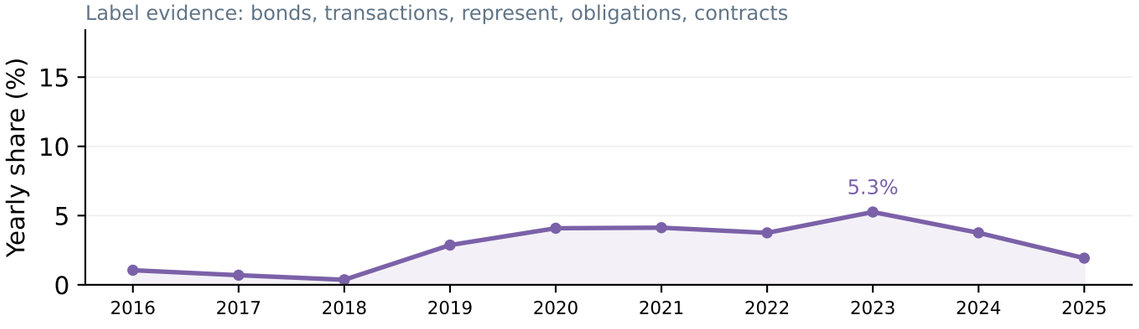

T19 · Mayoral signing and legislative authority

Label evidence: behalf, sign, authority

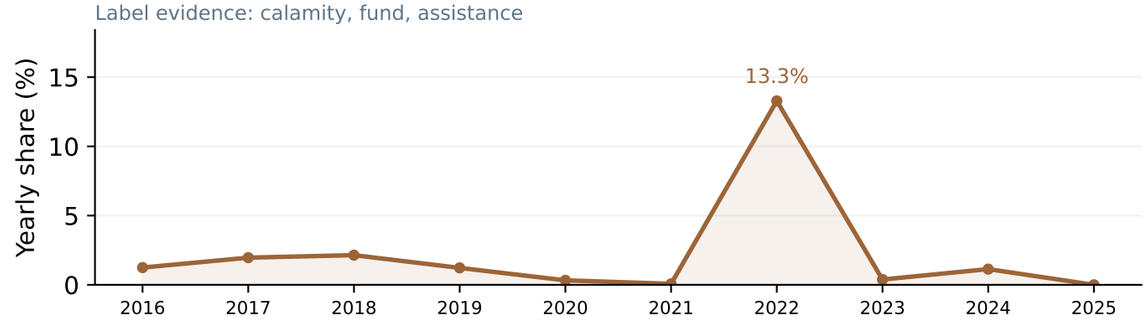

T2 · Contracting, representation and financial obligations

Label evidence: bonds, transactions, represent, obligations, contracts

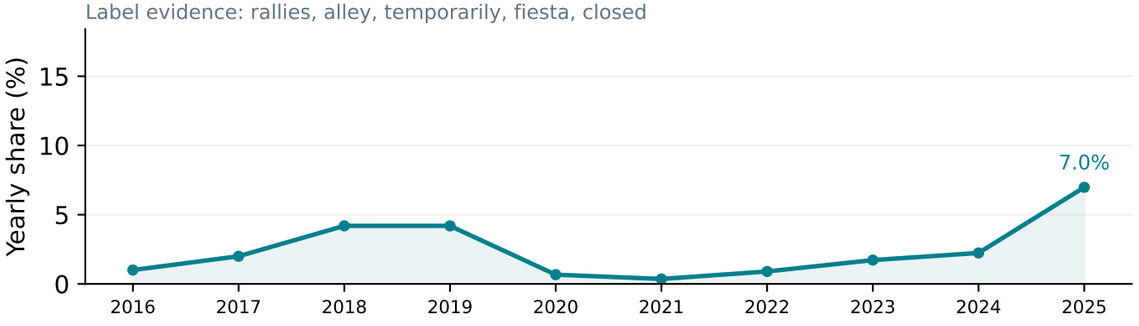

T29 · Disaster relief and calamity funding

Label evidence: calamity, fund, assistance

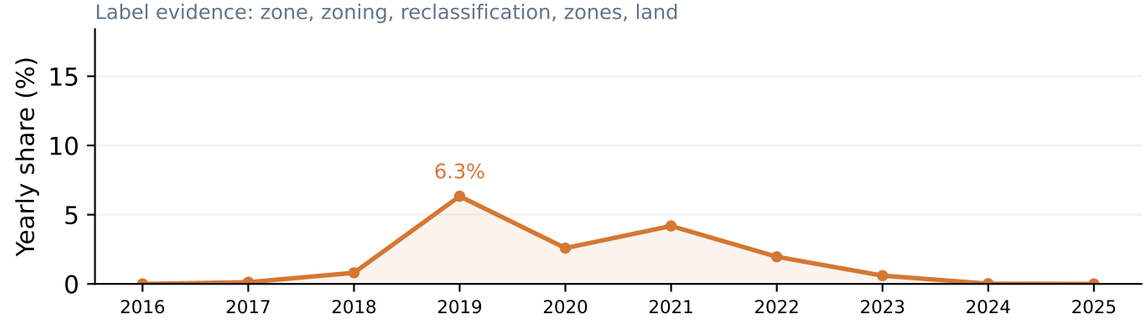

T5 · Event-related road closures

Label evidence: rallies, alley, temporarily, fiesta, closed

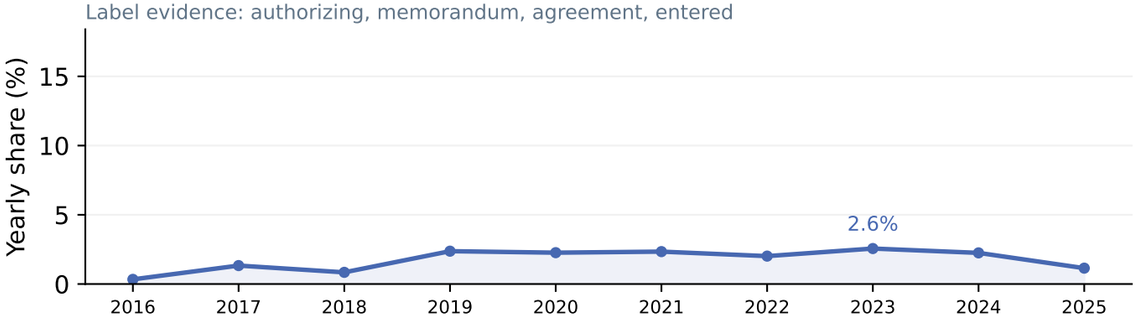

T40 · Land-use zoning and reclassification

Label evidence: zone, zoning, reclassification, zones, land

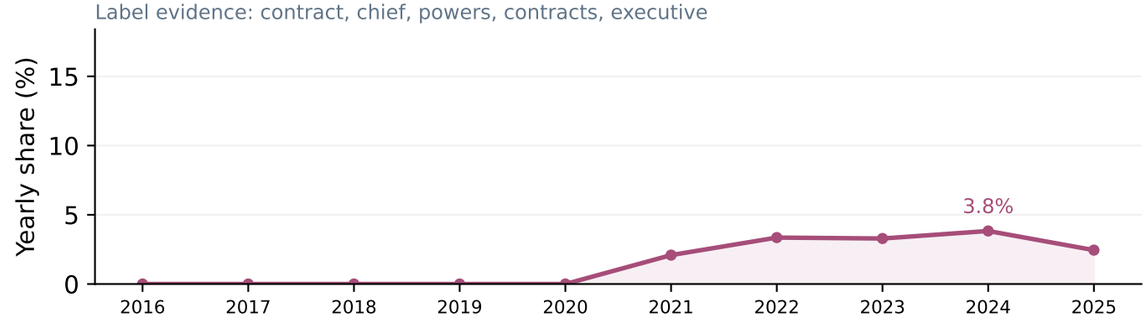

T7 · Agreements and mayoral authorization

Label evidence: authorizing, memorandum, agreement, entered

T18 · Mayoral contracting powers

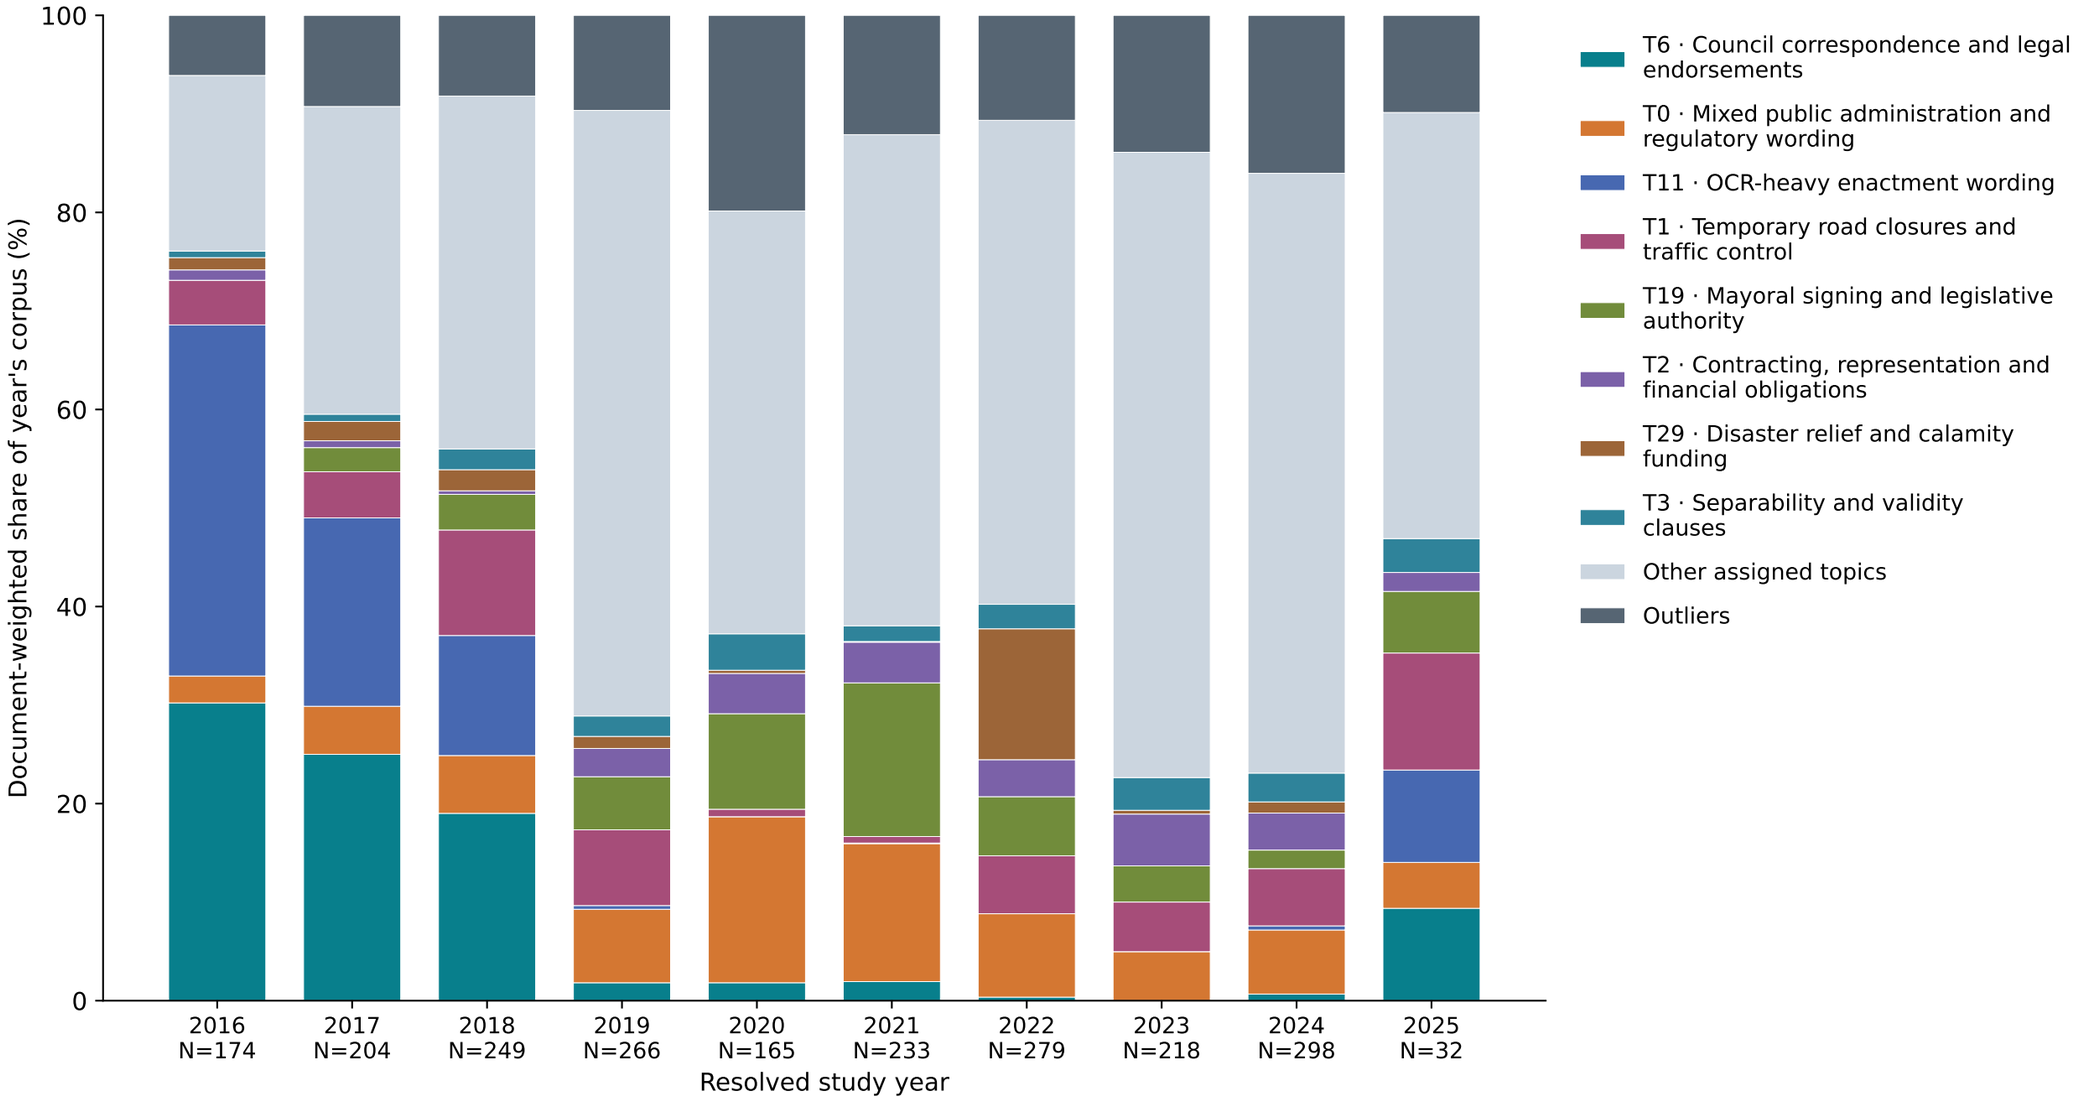

Label evidence: contract, chief, powers, contracts, executive

Document-weighted share = average within-document topic share in each year's included corpus; outliers remain in the denominator.
Lines connect annual observations only. Changes in this archive do not establish citywide policy growth, causation or statistical significance.

Model A · Lexical | Topic composition by year

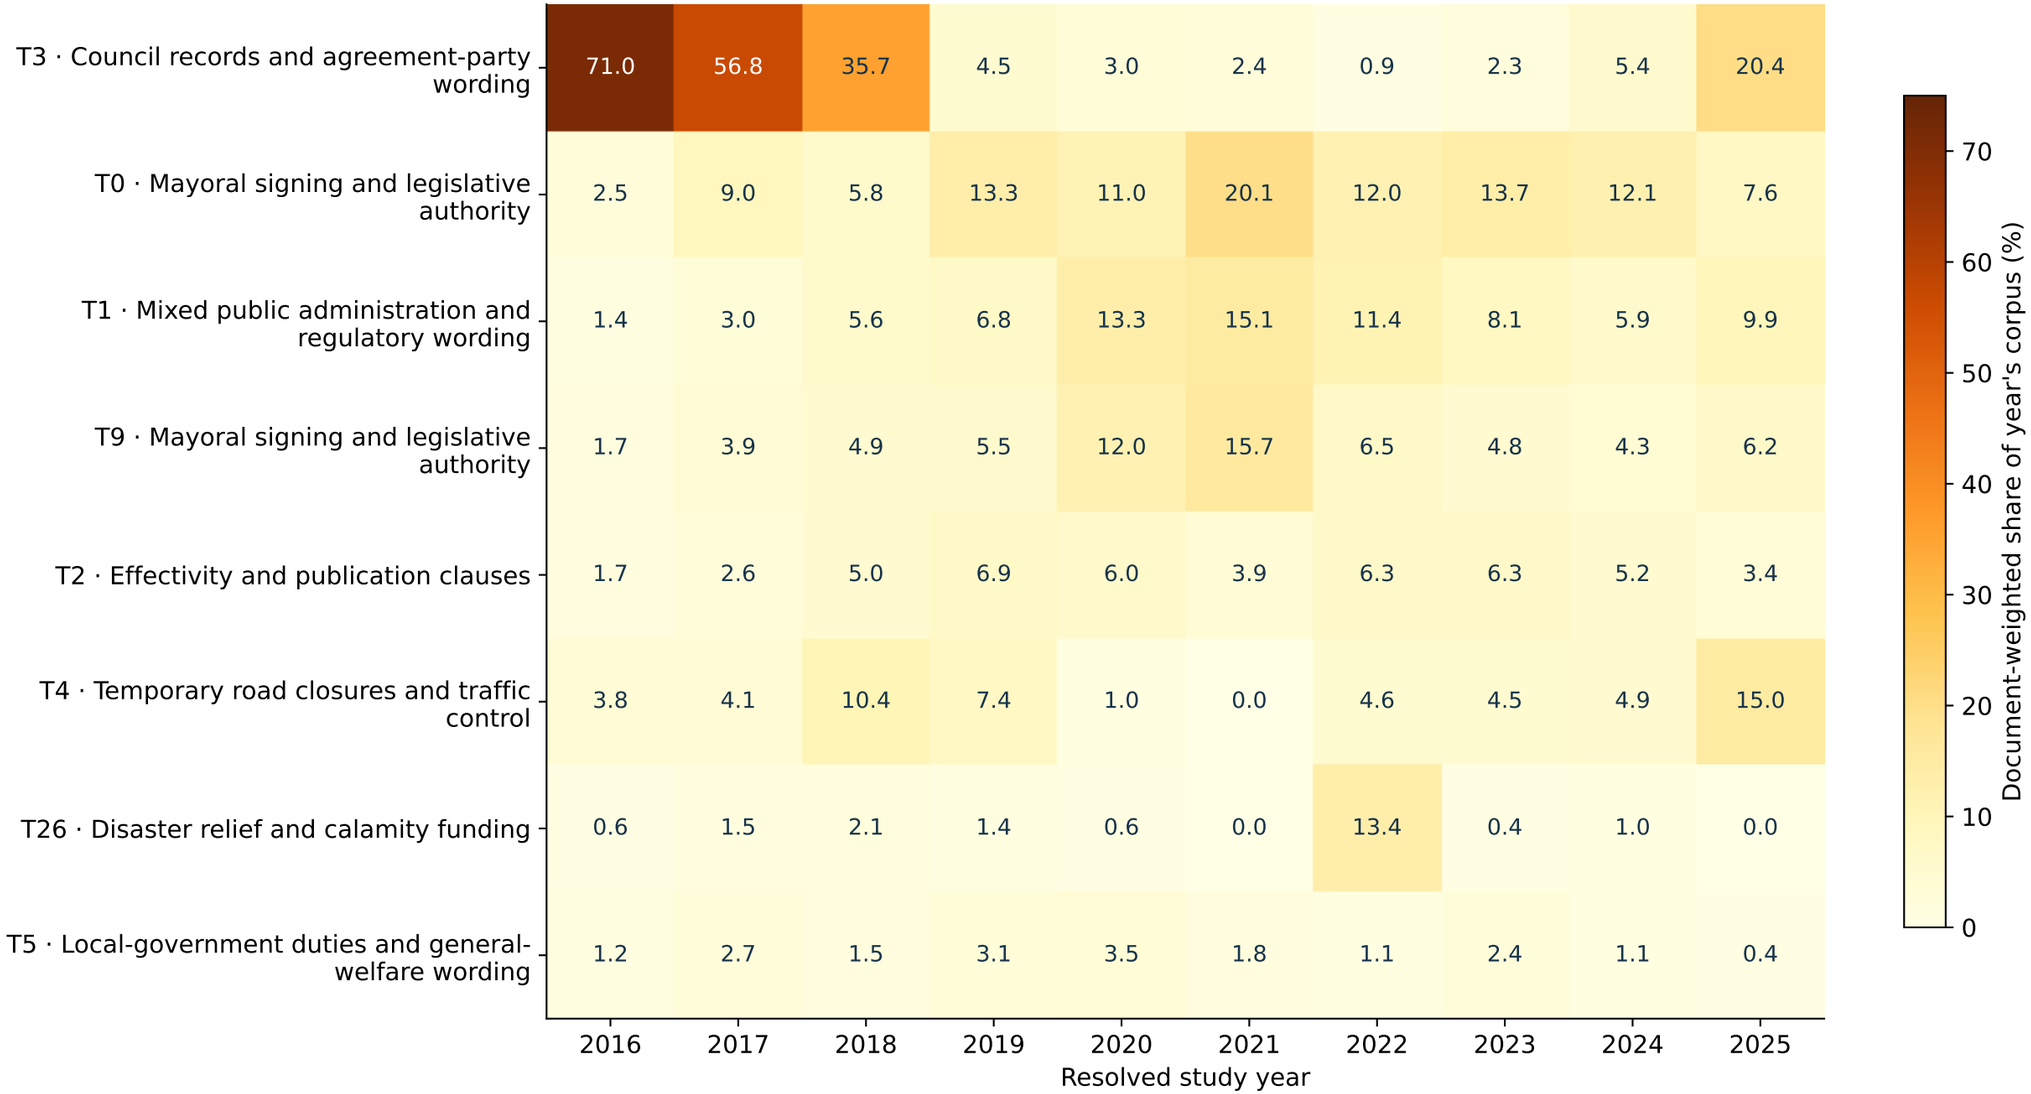

Leading topics plus all remaining assigned topics and outliers; every year's column totals 100%.

N = included source documents, not text units or all city ordinances. Each document contributes total weight 1.
Draft descriptive titles; similar titles in different models do not establish an exact topic match.

Model B · Legal-BERT | How leading topics vary over time

Top topics ranked by total fractional-document weight across 2016–2025. Draft titles summarize clustered keywords.

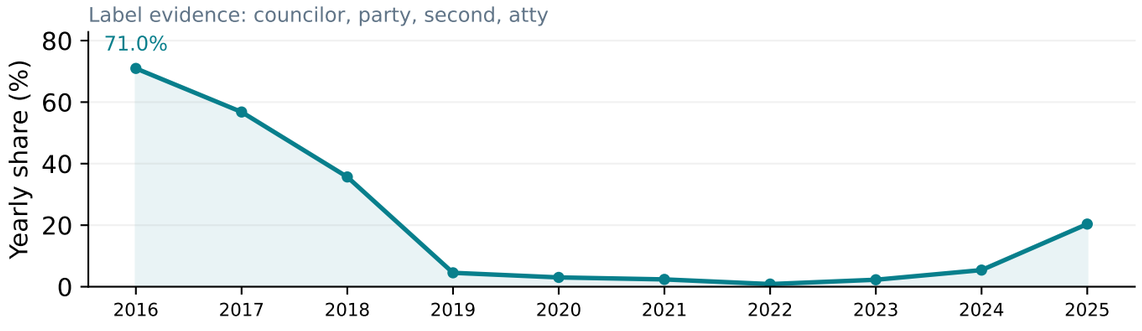

Includes procedural/OCR-heavy clusters when they rank highly; do not interpret those as substantive policy themes.
Same color scale across models. Topic IDs and titles do not imply cross-model equivalence.

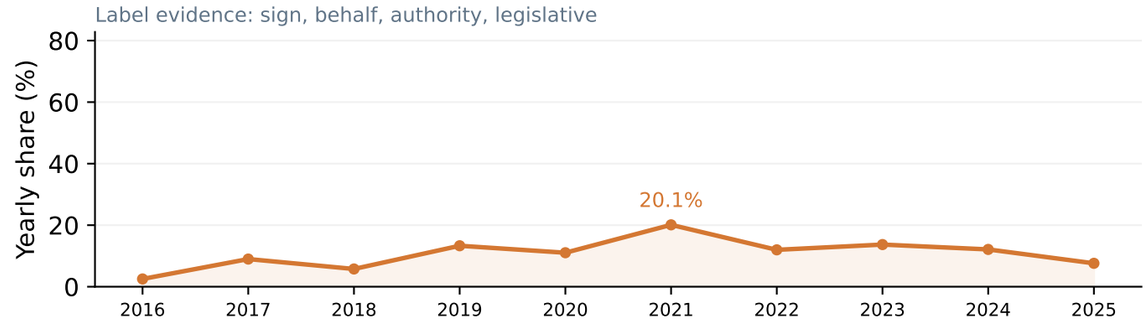

Model B · Legal-BERT | Leading topic trajectories

Top clusters by total document weight; procedural and unclear clusters remain visible. Titles are drafts, not expert ratings.

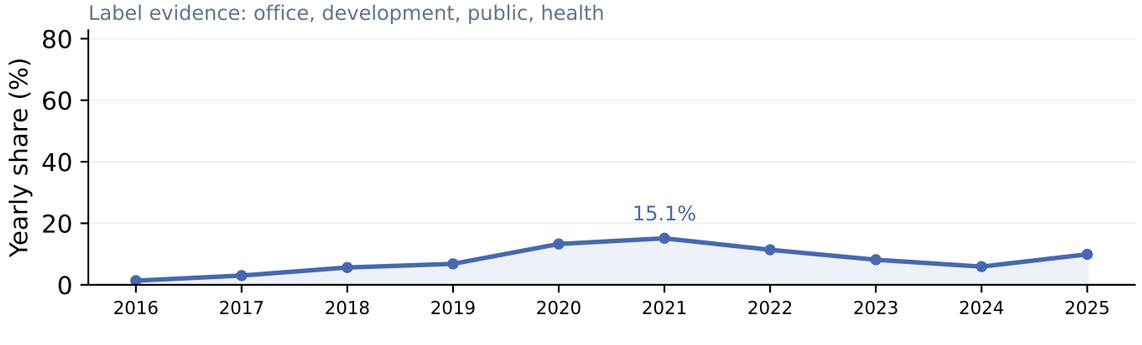

T3 · Council records and agreement-party wording

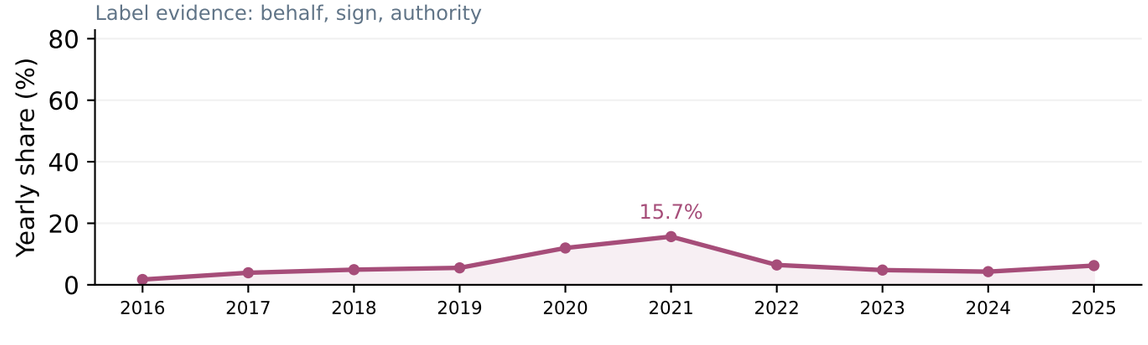

T0 · Mayoral signing and legislative authority

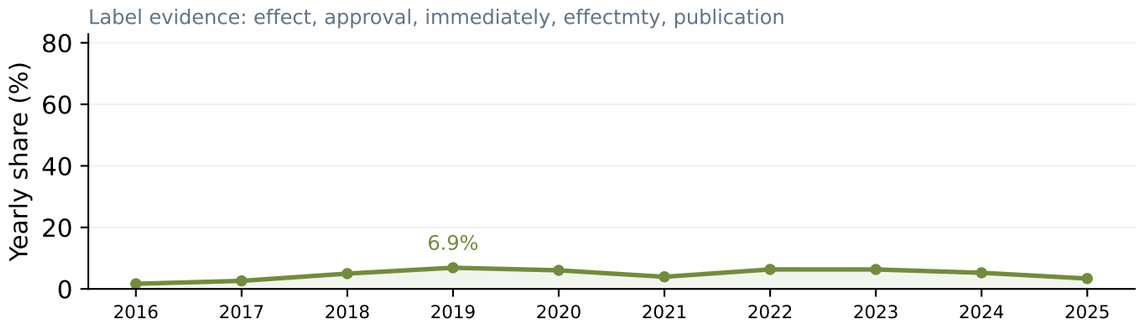

T1 · Mixed public administration and regulatory wording

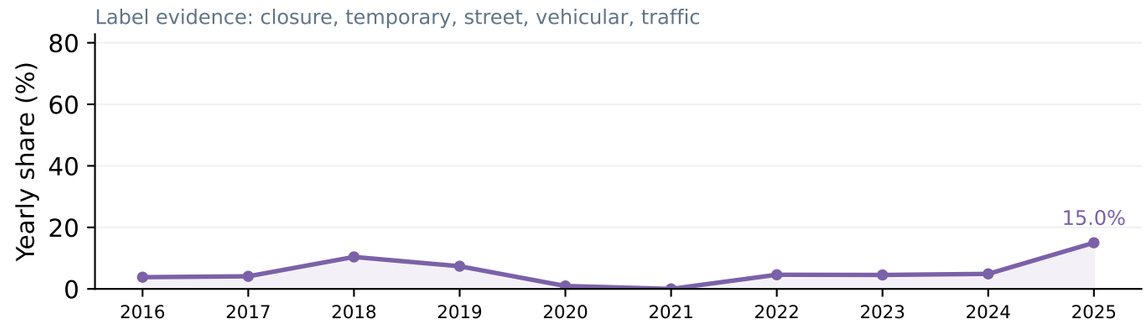

T9 · Mayoral signing and legislative authority

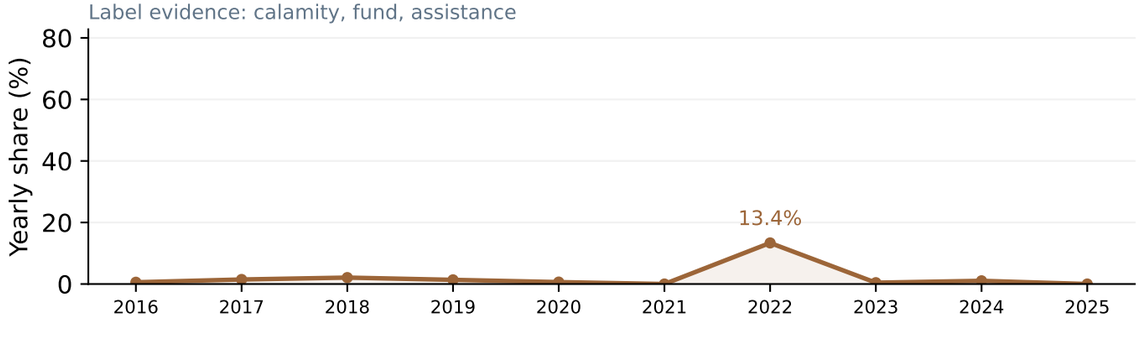

T2 · Effectivity and publication clauses

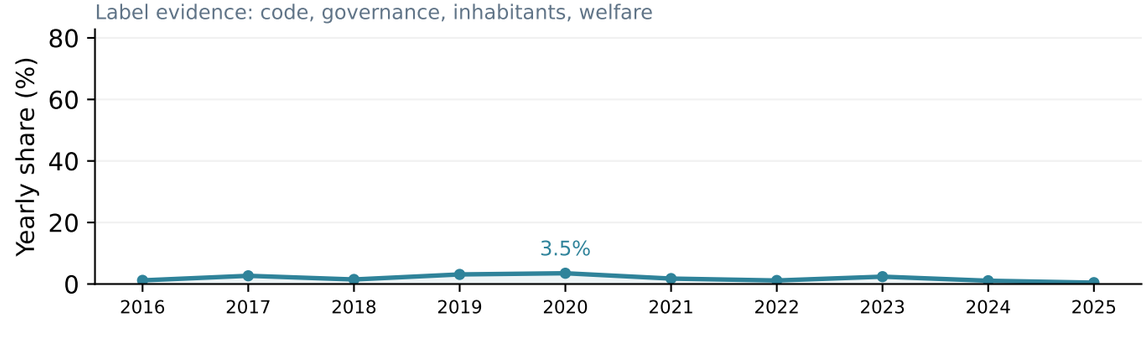

T4 · Temporary road closures and traffic control

T26 · Disaster relief and calamity funding

T5 · Local-government duties and general-welfare wording

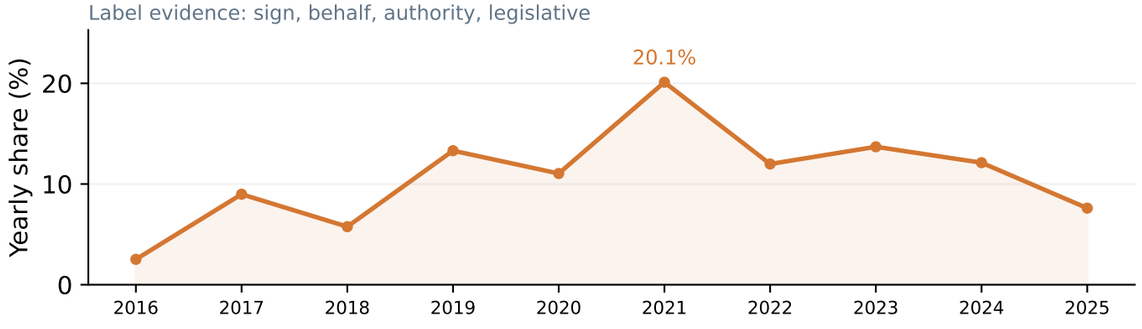

Document-weighted share = average within-document topic share in each year's included corpus; outliers remain in the denominator.
Lines connect annual observations only. Changes in this archive do not establish citywide policy growth, causation or statistical significance.

Model B · Legal-BERT | Selected interpretable topic trajectories
